

**Kerman International Exhibition of Mine, Mining,
Mining Industries, Mineral Processing and Equipment
International Exhibition of Mine and
Construction machinery**

18 – 21 May, 2022

Kerman International Exhibitions Center

**MINING
KERMAN 2022**

Dear Sir/Madam,

The leading event for the international Mining industry return to Kerman for international exhibition of mine, mineral and construction machinery to be held on May, 18-21, 2022.

Following the last successful event, we are pleased to announce that the important and key personnel Iranian people at this sector will participate in this event, such as government officials, ministry of land and resources, board of trade, mining investment and financing, miners, geological survey, exploration and development, material science associations, smelting and processing, chamber of commerce, plants managers, experts, seniors, and all the persons in charge at this sector.

This Golden opportunity is dedicated to following a path towards sustainable development of the Iranian mining industry and to being a part of global mining development trends in order to build a major annual event of mining dialogue, exchange and cooperation with integration of convention, exhibition and theme activity for the whole mining sector.

Environmental conversion, using latest technology, export, support of domestic companies is some of important issues in this event. We hope we can show the Iran potential at Mining in this event.

You can see most leading companies here.

Best Regards

Masoud
